COFFEE COUNTY R.A.'S HOLD CONCLAVE AT KINSTON

The Collins Cunningham chapter of R.A.'s entertained the Coffee County R.A.'s last Tuesday night.

The meeting was called to order by Mr. Wiley Stanford, as County R.A. counselor, Ambassador-in-Chief, Phillis Martin, of County Line, presided over the meeting. The group sang the theme song, "My King's Business" and gave the Allegiance, Commission and Declaration.

Devotional was given by Rev. Wise, followed by prayer by Rev. Floyd McLeod.

Business was attended with Mr. Stanford in charge. The R.A. camp at Shocco Springs was discussed.

Buddy Whitman of Elba gave a review of his trip to the R.A. congress recently held in Montgomery.

Mrs. Robert Wise, R.A. counselor of Kinston, introduced the guest speaker, Rev. Collins Cunningham, District Missionary of Troy.

After the program the group was invited out on the lawn where served hot dogs, doughnuts and soft drinks by the Kinston W.M.U. ladies. Rev. Cunningham entertained during the refreshment hour with his accordion, and the boys helped him sing. About 70 guests were present.

MOTHER'S CLUB MEETS WITH MRS. NEVIN

The home of Mrs. E. C. Nevin was beautifully decorated Tuesday night, May 23, when she, Mrs. Ernie Cain, and Mrs. Robert Colquett, entertained members of the Mother's Club.

The guest rooms were adorned with beautiful bouquets of zinnias given and arranged by Mrs. Nevin.

The president, Mrs. Bryant Steele, presided. A very interesting discussion of "Grandma has a way with children" was given by Mrs. Joseph Saunders. Mrs. Steele read the article, "Sex Education". The usual round table discussion followed.

During the social hour the hostess served delicious refreshments.

Mr. and Mrs. Pete Willis of Mobile, and Mr. Bob Willis of Tuscaloosa are visiting their mother, Mrs. W. C. Willis, this week.

Mr. and Mrs. Willie Coon attended a family reunion at the home of Mr. and Mrs. Tommy Coon in Panama City, Fla. Sunday.

Mr. and Mrs. M. C. Parrish and daughter, Lyndie, arrived here Tuesday to make their home with Mr. and Mrs. M. K. Parrish for a short time. They were met here by Mrs. Parrish's mother, Mrs. Winnie Wood, and Mrs. Geneva Cameron and daughter, Margie, and Mrs. Golden Runyon of Mulberry, Fla. They have been visiting in Kansas and stopped by here on their return.

Mr. and Mrs. Joseph Saunders and daughter, Jolinda, and Mr. and Mrs. T. B. Steele and children, Tommy and Myshon, spent Sunday at Sea Grove, Fla.

FARM AND HOME RADIO PROGRAM AND MEETING

The Kinston Farm and Home Radio Program was heard again over radio station WIRB, in Enterprise Thursday morning from 8:30 to 9:00 o'clock. This half hour is put on each first Thursday at the same time.

The theme of this month's program was the home food supply and this was emphasized on the program and at the farm meeting Thursday night.

Mrs. Robert Wise was master of ceremonies for the radio program and the following featured were presented: Music by the string band composed of Gardner Davis, Bill Hattaway, Hilton Boies, Ray Weeks, James Reeves and Junior Crabtree with the vocals by Ray and Junior.

The organization and activities of the Kinston Mother's Club, Mrs. Fred Wood; On the Farm Front, Mrs. Jessie Matthews; a reading "Our Community"; Mrs. Robert Wise; Home Food Supply, Mrs. Virginia Yeager, assistant State Home Economist of the Farmers Home Administration.

In charge of the farm and home meeting at Kinston Thursday night, was Mrs. Robert Wise who presented the following program:

Devotional by Miss Wilene Clark; Visitors from Ito and Kinston; Veterans Glasses were recognized; The overflowing crowd was welcomed to the meet.

Mr. J. F. Pridden was introduced and he explained how the Farmers Home Administration is set up in Coffee County and the services his organization offers to farm families. He stated that those interested in buying a farm should make application to the F.H.A. committee composed of farmers in the County.

The principal speaker of the meeting was Mrs. Virginia Yeager, who discussed further the important topic "Your Home and Your Food". She gave an interesting discussion of the seven basic foods. She pointed out that our most important crop is our children and emphasized the necessity of providing a balanced diet for our growing young folks.

Growing as much vitamin and mineral rich food at home as possible, was stressed as a fine practice.

At the close of the meeting Mrs. Matthews announced that the next Community Council meeting would be held Monday night, June 10. It is the week for the health committee to provide the program and Mrs. Matthews has secured Dr. Paul, the County Health Officer, to be the guest speaker.

Atom-Powered Plane Of Supersonic Speeds Said in Production

CLEVELAND, Ohio—Development of an atom-powered airplane, able to circle the globe at supersonic speeds, is in progress and a date for its test flight is in the offing.

Andrew Altinsky, chief engineer of the Oak Ridge, Tenn., atomic center has said that work on the plane is on a definite timetable.

The plane will be of larger dimensions than current bombers, it was said, but will resemble present supersonic models in appearance.

Speaking before the institute of aeronautical sciences, the 36-year old scientist said the main obstacle to overcome will be the shielding against lethal nuclear radiation within weight limits imposed by aircraft.

However, he said the tremendous weight of gasoline in conventional aircraft affords a good margin for the shielding job, since fuel weighs less than gasoline.

"A pound of uranium has about two million times as much energy as a pound of gasoline," Altinsky said, "and that's what excites scientists."

He pointed out that the application of atomic energy to aircraft, but "these problems do not look insurmountable."

The development of the atomic-powered aircraft is a joint undertaking of the Army and Navy, the national advisory committee for aeronautics and the air force and navy.

Mr. J. F. Pridden was introduced and he explained how the Farmers Home Administration is set up in Coffee County and the services his organization offers to farm families. He stated that those interested in buying a farm should make application to the F.H.A. committee composed of farmers in the County.

Atom Bombing Survivors Barring New Out of Danger

WASHINGTON—After more than five years, survivors of the atomic bombings of Hiroshima and Nagasaki appear to be out of danger.

Very few of the program and Mrs. Matthews have appeared, according to reports to the atomic energy commission.

A thorough study of the blood picture of the survivors was made last year. There was a slight decrease from normal in both red blood cells and various types of white cells, but this was not sufficient to affect general health.

Almost the same picture obtained in the Japanese city of Kure, which suffered no atomic bombardment.

A good many babies have been born in both Atom-bombed cities since 1945. There were predictions that children of the bomb victims would show a high percentage of deformity. This has not been the case.

There was only one significant positive finding reported by a team of doctors headed by Dr. David Cogan of Harvard university. They detected 10 cases of cataracts of the eyes which were undoubtedly due to radiation.

Accepting those examined as a fair sample, it is predicted that about 6 per cent of all those within 1,000 yards of the center of the explosion eventually will develop such cataracts, which lead to blindness.

"Otherwise," says the report, "those surviving the acute effects of radiation can expect a reasonably normal life."

It is stressed, however, that it may still be too early to make this prediction with complete assurance. There is reason to suppose that there will be a somewhat greater amount of leukemia, the incurable "blood cancer," as the years go by.

Russia Named Beneficiary in Will of Late New Yorker

NEW YORK—New Yorker Laird Shields Goldsborough has bequeathed "certain articles of special rarity" to the Russian government.

Shields, a former foreign affairs editor of Time magazine, jumped or fell to his death from his office on the ninth floor of 9 Rockefeller plaza.

In his will, he named the Russian government an alternate legatee to the contents of a safe deposit box, described only as "certain articles of special rarity."

The Elizabethan club of Yale university, the Metropolitan museum of art, the British museum in London and the Hermitage museum of Leningrad, in turn, have the chance to take the articles.

If none accepts, Goldsborough's will directed that "said articles be given to the de facto government for the time being in Russia, to have and to hold to its own use and benefit absolutely and forever."

Elba Exchange Bank PRESENTS INTERESTING FACTS ABOUT ALABAMA

Alabama Polytechnic Institute, at Auburn, was founded in 1857 as a school for Methodist boys in Alabama. In 1872, it was turned over to the State for use as an Agricultural and Mechanical College. It was the first educational institution in Alabama to admit women on an equal basis with men. It was also the first Southern College to establish a separate chair for electrical engineering. Prof. A. F. McKissick constructed the first apparatus used in the United States for the demonstration of the X-ray.

SOCIALS

MT. GILEAD H. D. CLUB

The Mt. Gilead Home Demonstration club met Thursday, June 1 at the Community building. The meeting was called to order by the President, Mrs. Ed Donaldson. The group sang two songs. The Devotional was given by Miss Dixie Donaldson. The reading of the minutes were omitted due to the absence of the secretary. The roll was called and was answered with the cute saying of some small child.

Mrs. Ed Donaldson and Miss Myrtle Martin gave the lesson on "The Family Goals". Delicious refreshments were served to 12 members by the hostesses, Mrs. Willie
